INDEPENDENT SLATE SUPPLIES

Where quality comes naturally

Independent Slate Supplies (ISS) have been established for over 35 years and are specialists in the import and distribution of high quality, competitively priced roofing and flooring products and their associated accessories.

Whether you are a roofing contractor, a developer, a homeowner, a general builder, an architect or a merchant, please do not hesitate to contact us so we can discuss your requirements. We can assist you in selecting the most appropriate product for your planned development, which can be supplied via our network of merchants and stockists throughout the UK.

Natural Slate Ridges

Plain Angle

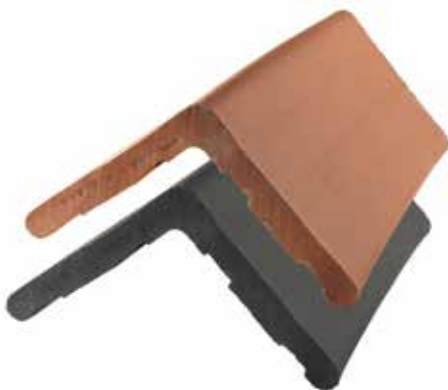

Capped Plain Angle

Our Natural Slate Ridges are available in either Grey Green or Graphite colour, and in plain or capped designs. With aluminium bonding plates secured with a hard resin, these ridges will last the test of time.

Natural Slate Ridges are the perfect compliment to our Natural Roofing Slate. Visit the website to see our full Natural Roofing Slate product range.

Clay Ridges

Texture: A smooth clay finish with straight cut edges.
Colour: Red and Black.

Concrete Ridges

Standard Universal Angle

Our Concrete ridge tiles are available in three designs; a plain angled design, a curved universal angle design and a standard universal angle design. These designs cover most pitched roof options. They are a budget alternative to Natural Slate or Clay ridges.

Texture: A rough textured cement finish.

Colours: Red, Black and Grey.

Curved Universal Angle

Plain Angle

INDEPENDENT SLATE SUPPLIES

Where quality comes naturally

ISS Inline Natural Vent

ISS supply this inline natural topped vent which would match any natural slated roof. It is the most discreet vented system that is on the market.

For details of required ventilation standards please

refer to the BS5250 standard. All standard sizes available.

The Slate Vent has a free air capacity of 10,000mm².

Each vent comes with a 100mm round adapter.

Colour: Varying grill colours to match the natural slate.

ISS Inline Smooth Vent

This product has a smooth surface and has square edges. An economical vent for a natural slate roof although it is a perfect match for any manmade slate roof and it is manufactured from UV stable material.

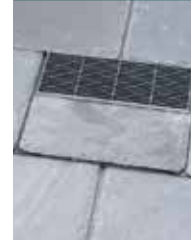

For details of required ventilation standards please refer to the BS5250 standard. All standard sizes available.

The Slate Vent has a free air capacity of 10,000mm².

Each vent comes with a 100mm round adapter.

Colour: Blue/Black.

ISS Nature Vent

This product has a smooth surface and has square edges. An economical vent for a natural slate roof although it is a perfect match for any manmade slate roof and it is manufactured from UV stable material.

For details of required ventilation standards please refer to the BS5250 standard. All standard sizes available.

The Slate Vent has a free air capacity of 10,000mm².

Each vent comes with a 100mm round adapter.

Colour: Blue/Black.

ISS Mechanical Secret Fixing Kit

For use when replacing a broken slate, ideal for:

- general repairs
- after solar panel bracket mounting
- after roof light/window installation
- after installing slate vents
- conservation and heritage buildings

Attractive easy and fast to fit, ideal for period and conservation properties. Fit and forget; a permanent solution to roof repairs.

Vented Dry Ridge System Kit

Our kit is an innovative universal dry fixed ventilated ridge and hip system. Manufactured entirely from aluminium, it overcomes the durability and weathering problems associated with other fabric based roll ridge systems. It has the following benefits: All aluminium construction, Suits all tile profiles including all ridge and hip tile designs. Quick and easy to install, Ventilated and driving rain resistant, Available in grey or terracotta, 300mm wide. Handy 6m pack.

Copper Nails and Disk Rivets

ISS recommend the use of two Copper nails when traditionally fixing natural or fibre cement slates, in accordance with the BSEN 5534 guide.

ISS also stock Copper Disc Rivets; these are used in conjunction with two copper nails when fixing Fibre Cement slates. You will require one per slate.

Slate Hooks

Stainless steel hooks are available in BS316 grade in various lengths. This means of fixing is used throughout Europe and has the benefit of quicker fixing, reduced breakage and ease of replacement.

Colours: Bright (stainless steel), Black or Green.

Flooring Grout, Adhesive & Sealant

ISS supply Grout, Adhesive and Sealant products to compliment our Natural Flooring Slate range.

These products are suitable for both internal and external use. For more detailed information on these products please call us, or visit the website.
