

MORE FROM WOOD.

Egger Peel Clean Xtra

Peel clean T&G structural flooring board.

Part of the EGGER
ADVANCED
Structural Flooring System

Product Description

This P5 Grade (enhanced moisture resistant) chipboard is covered with an easy-to-peel, anti-slip woven surface film which helps to prevent moisture ingress during the build process. When the film is removed at the end of the building process it leaves a polymer sealed surface on top of the board providing a clean and well-presented floor with an added moisture barrier upon completion.

- Xtra strength, durability and improved cutting.
- Xtra anti-slip surface on the film provides additional foot holding even in wet conditions.
- Easy-to-peel off film reveals a clean and well-presented floor prior to handover.
- Consistent peel-off film leaves a polymer finish on top of the board surface which provides an added moisture barrier.
- Can be installed in light rain conditions resulting in fewer stoppages on site.
- Once correctly laid can be left exposed to the elements for up to 42 days during the build process.
- Tighter edges on the film to prevent edges curling and lifting; with no joint sealing tape required if using EGGER D4 Adhesive.
- CE & FSC® certified.

Product Information	
Size	2400 x 600 mm
Weight	1.5 tonnes
Board thickness	18 mm, 22 mm
Boards per pack	80, 64

When used as part of the EGGER Advanced Structural Flooring System, EGGER Peel Clean Xtra is covered by our EGGER Advanced Lifetime Guarantee (See reverse).

The mark of responsible forestry

The EGGER Advanced Lifetime Guarantee in three easy steps

Select the correct structural flooring grade chipboard from the EGGER Advanced range.
