

Firestone:
A World Leader in Rubber Technology

For over a century Firestone has been a trusted name in quality rubber products and technology. Firestone EPDM roofing membranes are manufactured by Firestone Building Products, a division of Bridgestone Firestone Diversified Products.

Since 1980, more than One Billion square meters of Firestone EPDM membranes have been successfully installed on roofs worldwide. This performance has positioned the company as a leading manufacturer of EPDM roofing membranes.

RubberCover:
Proven Performance

The Firestone RubberCover System is based on EPDM roofing membranes that are made of a synthetic rubber compound. For more than 25 years Firestone EPDM membranes have been installed on commercial and industrial roofs worldwide offering proven field performance. Today the High Quality Firestone EPDM membranes are also available for residential roofing applications.

RubberCover comes in the following panel sizes:

- | | |
|---------------|----------------|
| 3.05m x 7.62m | 3.05m x 30.50m |

Special Features and Benefits

The Firestone RubberCover System offers a unique combination of features and benefits which have been demonstrated on hundreds of thousands of exposed roofs around the world.

✓ Superior Durability and Longevity

Firestone RubberCover offers unmatched resistance to ozone, UV radiation, extremes of low and high temperatures.

✓ Quick and Easy Installation

With flame-free installation, Firestone RubberCover is available in large, seamless single-ply sheets resulting in fewer seams and less installation time.

✓ High Flexibility and Elongation

Firestone RubberCover remains highly flexible even at temperatures down to -45°C. The membrane can also elongate over 300% to accommodate building movements.

✓ Low Life-Cycle Cost

Firestone RubberCover requires little or no maintenance once installed and has a life expectancy up to 50 years.

✓ Eco Friendly

Firestone RubberCover is an inert material with limited environmental impact during manufacture and use.

A Multitude of Uses

Firestone RubberCover is an ideal, high performing system for a variety of flat roofing applications around your home.

- Extensions
- Verandas
- Garages
- Car Ports
